

# **Integrated Services for Recyclable Waste Management Servicii Integrate de gestionare a deseurilor reciclabile Klaussenburg Recycling GmbH**

**Ionita Mihai – An I IFR**

Ecological University of Bucharest

## **Summary:**

***KLAUSSENBURG RECYCLING GmbH** is a private Romanian company whose main activity is the provision of integrated services for the management of recyclable waste (collection, transport, storage, sorting and recovery of non-hazardous waste), and consultancy services specific to this market segment.*

*Considering the complexity of the legislation in the field, but especially the risks associated with its non-compliance, most waste-generating companies need advisory services in the integrated waste management system.*

*With the accession and later with Romania's integration into the EU, good waste management has become particularly important at national level, and in this regard, we have been remarked by promptness and professionalism, becoming a national reference at present.*

*Thanks to a well-implemented management and continuous improvement of the auxiliary production staff, we have constantly adapted our requirements to the market and especially the needs of our partners. Having as an objective objective the broadening of our operating scope in the field of recyclable waste, we are always one step ahead of market needs and trends, focusing in particular on the provision of integrated waste management services specific to large economic operators, in essence, the largest generators of recyclable waste in Romania and beyond.*

*The entire technological process is accomplished by supplying materials to end-of-pipe recyclers both in the country and abroad, this aspect being permanently monitored to end the recycling cycle, which is essentially the main mission of our business.*

*Key words: selective collection, management services, Klaussenburg recycling GmbH*

## **Rezumat:**

***KLAUSSENBURG RECYCLING GmbH** este o companie romaneasca cu capital integral privat, al carei obiect de activitate il constituie furnizarea de servicii integrate de gestionare a deseurilor reciclabile (colectarea, transportul, depozitarea, sortarea si valorificarea deseurilor nepericuloase), dar si servicii de consultanta specifica pentru acest segment de piata.*

*Avand in vedere complexitatea legislatiei din domeniu, dar mai ales riscurile pe care le implica nerespectarea ei, majoritatea societatilor generatoare de deseuri are nevoie de consultanta aplicabila in sistemul integrat de gestionare a deseurilor.*

*Odata cu aderarea si ulterior cu integrarea Romaniei in UE, buna gestionare a deseurilor a devenit deosebit de importanta la nivel national, iar in acest sens, ne-am remarcat prin promptitudine si profesionalism, devenind in prezent un nume de referinta la nivel national.*

*Gratie unui management bine implementat si a perfectionarii continue a personalului auxiliar din productie, ne-am adaptat constant cerintelor pietii si mai ales nevoilor partenerilor nostri. Avand ca principal obiectiv largirea sferei noastre de operare in domeniul deseurilor reciclabile, suntem in permanenta cu un pas inaintea nevoilor pietii si a tendintelor acesteia, axandu-ne in mod deosebit pe furnizarea de servicii integrate de gestionare a deseurilor specifice marilor operatori economici, care reprezinta in esenta si cei mai mari generatori de deseuri reciclabile din Romania si nu numai.*

*Intregul proces tehnologic este desavarsit prin furnizarea materialelor catre reciclatorii finali, atat din tara cat si din strainatate, acest aspect fiind in permanenta monitorizat in vederea incheierii ciclului de reciclabilitate, care reprezinta in esenta principala misiune a activitatii noastre.*

*Cuvinte cheie: colectare selectiva, servicii management, Klaussenburg recycling GmbH*
